

# Virender Nishad

IT Security Researcher

I am Cyber Security Researcher, Certified Information Security & Ethical Hacker, Software Coder, Motivational Speaker and apart from that Co-Founder of Blackroot Technologies deals in IT Services.

Always passionate about what's new in Ethical Hacking, Designing a creative website, Coding, Penetration Testing of Web applications, Security, gadgets and everything to go with it. I want to make small businesses grow bigger and reach to large peoples through web as well as to make business life easy with his customized software solutions and to raise the awareness of Information Security, which is nowadays is the key to a successful business.
